

Dunlee announces TSA course for Reevo 240G

Aurora, Illinois, December 5, 2011, RSNA Booth #4003 – When a tube fails, prompt and proper installation and calibration of the replacement tube is critical to minimize downtime. To assist service professionals, Dunlee developed Tube Service Assistant (TSA), which provides helpful information prior to tube installation or step-by-step instructions on site.

New on Dunlee's TSA is a complete guide for installing the popular Reevo 240G replacement tube, an alternative tube designed for use in GE LightSpeed* and VCT* Series CT systems. The TSA's interactive electronic tutorial gives

step-by-step instructions for removing the failed tube and installing and calibrating the new tube to fully comply with the OEM guidelines.

Dunlee customers can access the TSA on the [Dunlee University website](#) and through the new Dunlee App for iPhone/iPad on the Apple App store. The Reevo 240G TSA course is currently available online and will be available via the Dunlee App on December 1, 2011. To enroll and use the TSA, a customer number is required. If you do not know your customer number, email heather.funk@philips.com. 24/7 customer and technical support is available at 1-800-238-3780.
