**GENERAL WARRANTY - X-RAY TUBES
(UNLESS COVERED ELSEWHERE WITHIN THIS DOCUMENT)**

Dunlee warrants this product shall be free of defects in material and workmanship and will meet the technical performance and ratings specifications contained in the applicable Technical Data Sheets published by Dunlee as of the date of shipment. Dunlee warrants said products on a prorated basis as stated below. Dunlee's obligation under this warranty is limited in accordance with the periods of time or usage and all other product(s) in accordance with the provisions stated below, provided that, Dunlee may elect to refund a prorated portion of the purchase price of the product, if the defective product was replaced with Dunlee product. Warranty credit may be denied for defective Dunlee products replaced with other manufacturer's products. Defective products are those found upon examination by Dunlee to be inoperative within the periods and applications specified herein due to traceable defects in original materials or workmanship.

LIMITATIONS ON WARRANTY

Warranty adjustments will only be considered if a product fails or becomes inoperative within the published technical performance and ratings specifications, and is used under "normal intended usage." Use of the product under "other than normal intended usage" applications shall be without warranty. Additionally, the warranty does not apply to any loss, damage, failure and/or malfunction relating in any way to shipping, storage, accident, abuse, misuse, alteration or equipment malfunction. The entire obligation of Dunlee under this warranty is to repair or replace the defective products, or at its option, to issue credit or refund. In no event shall Dunlee be liable for consequential or special damages.

WARRANTY PERIOD

The warranty period for x-ray tube products (herein x-ray) shall commence (i) on the date of installation and end 24 months thereafter or (ii) commence on the date of shipment and end 26 months thereafter, whichever occurs first. The warranty period for high performance (vascular) tubes shall (i) commence on the date of installation and end 12 months thereafter or (ii) commence on the date of shipment and end 14 months thereafter. The warranty period for Computer Tomography (herein CT) shall (i) commence on the date of installation and end 12 months thereafter or (ii) commence on the date of shipment and end 14 months thereafter or (iii) commence on the date of installation and end on the date the product attains the usage number of exposures or slices set forth below for the particular product, whichever comes first.

WARRANTY TERMS

- Warranty consideration will be given only for products returned to Dunlee properly packaged and accompanied by a "Tube Return Form."
- All shipping costs for a warranty refund product to Dunlee are the responsibility of the purchaser and must be prepaid.
- All repairs including parts and labor made under the term of his warranty will be at no charge.
- Warranty will only be extended to the original purchaser. Transfer of warranty will not be honored without expressed prior written authorization of Dunlee.
- Warranty claims will be accepted up to 30 days after the expiration of the warranty if the failure occurred during the warranty period. This grace period will allow time for the purchaser to return the product should the failure occur during the last month of warranty.

REPLACEMENT CREDIT ALLOWANCE

Credit allowances will be computed on the basis of "Premature or Prorated Allowance." A premature failure is defined as early failure and, at Dunlee's option, will be replaced at no cost to the purchaser or a full credit will be issued. The period for premature failure for products commences upon installation and will end:

X-Ray Tubes	3 months
High Performance (vascular) Tubes.....	one month
CT Tubes	3,000 exposures/slices (not to exceed 90 days)

Note: For General Electric or Siemens replacement CT tubes, refer to specific warranty pages quantity and units

The prorated allowance for x-ray tubes is computed as:

$$100\% - [\text{Number of months installed}/24 \text{ (in\%)}]^*$$

The prorated allowance for high performance (vascular) tubes is computed as:

$$100\% - [\text{Number of months installed}/12 \text{ (in\%)}]^*$$

The prorated CT warranty credit applied will be based on the lesser of the time or usage remaining from the calculations below:

$$100\% - [\text{Exposures Used}/\text{Exposure Warranty (in \%)}]$$

or

$$100\% - [\text{Number of months installed}/12 \text{ (in\%)}]^*$$

CT Product Warranties vary with specific products and applications. The exposures warranty is listed in the Dunlee Price List.

* Credit may be based on time from shipment per terms listed above.

WARRANTY - GENERAL ELECTRIC CT SYSTEM X-RAY TUBES

Dunlee warrants this product shall be free of defects in material and workmanship and will meet the technical performance and ratings specifications contained in the applicable Technical Data Sheets published by Dunlee as of the date of shipment. Dunlee warrants said products on a prorated basis as stated below. Dunlee's obligation under this warranty is limited in accordance with the periods of time or usage and all other product(s) in accordance with the provisions stated below, provided that, Dunlee may elect to refund a prorated portion of the purchase price of the product, if the defective product was replaced with Dunlee product. Warranty credit may be denied for defective Dunlee products replaced with other manufacturer's products. Defective products are those found upon examination by Dunlee to be inoperative within the periods and applications specified herein due to traceable defects in original materials or workmanship.

LIMITATIONS ON WARRANTY

Warranty adjustments will only be considered if a product fails or becomes inoperative within the published technical performance and ratings specifications, and is used under "normal intended usage." Use of the product under "other than normal intended usage" applications shall be without warranty. Additionally, the warranty does not apply to any loss, damage, failure and/or malfunction relating in any way to shipping, storage, accident, abuse, misuse, alteration or equipment malfunction. The entire obligation of Dunlee under this warranty is to repair or replace the defective products, or at its option, to issue credit or refund. In no event shall Dunlee be liable for consequential or special damages.

WARRANTY TERMS

- Warranty consideration will be given only for products returned to Dunlee properly packaged and accompanied by a "Tube Return Form."
- All shipping costs for a warranty refund product to Dunlee are the responsibility of the purchaser and must be prepaid.
- All repairs including parts and labor made under the term of this warranty will be at no charge.
- Warranty will only be extended to the original purchaser. Transfer of warranty will not be honored without expressed prior written authorization of Dunlee.
- Warranty claims will be accepted up to 30 days after the expiration of the warranty if the failure occurred during the warranty period. This grace period will allow time for the purchaser to return the product should the failure occur during the last month of warranty.

WARRANTY PERIOD

The warranty period for any General Electric replacement Computer Tomography X-Ray Tube shall (i) commence on the date of installation and end according to the time period indicated in the table below or (ii) commence on the date of shipment which is not to exceed 2 months from the date of installation and end according to the time period indicated in the table below or (iii) commence on the date of installation and end on the date the product attains the number of slices, amp. seconds or patient exams as set forth below for the particular product, whichever comes first.

<u>CT System</u>	<u>Full Warranty Period</u>	<u>Pro-rated warranty Period</u>	<u>Warranty in Patient Exams</u>

(a) The "Full Warranty Period" not to exceed 90 days

REPLACEMENT CREDIT ALLOWANCE

Credit allowances will be computed on the basis of "Premature or Prorated Allowance." A premature failure is defined as early failure and, at Dunlee's option, will be replaced at no cost to the purchaser or a full credit will be issued. The warranty period for any product furnished to a customer without a prorated period to correct a premature failure, will be the unexpired term of the warranty of that product applicable to the replaced product.

The prorated CT warranty credit applied will be based on the lesser of the time or usage remaining from the calculations below:

$$100\% - [\text{Exposures}^* \text{ Used} / \text{Exposure}^* \text{ Warranty (in \%)}]$$

or

$$100\% - [\text{Number of months installed} / 12 \text{ (in\%)}]**$$

CT Product Warranties vary with specific products and applications. The exposures warranty is listed in the table above.

* Exposures are defined as Slices, Amp-Seconds (As or mAs), or Patient Exams per the terms listed above

** Credit may be based on time from shipment per terms listed above.

***The "Full Warranty Period" not to exceed 90 days

DUNLEE WARRANTY SIEMENS CT SYSTEM X-RAY TUBES

Dunlee warrants this product shall be free of defects in material and workmanship and will meet the technical performance and ratings specifications contained in the applicable Technical Data Sheets published by Dunlee as of the date of shipment. Dunlee warrants said products on a prorated basis as stated below. Dunlee's obligation under this warranty is limited in accordance with the periods of time or usage and all other product(s) in accordance with the provisions stated below, provided that, Dunlee may elect to refund a prorated portion of the purchase price of the product, if the defective product was replaced with Dunlee product. Warranty credit may be denied for defective Dunlee products replaced with other manufacturer's products. Defective products are those found upon examination by Dunlee to be inoperative within the periods and applications specified herein due to traceable defects in original materials or workmanship.

LIMITATIONS ON WARRANTY

Warranty adjustments will only be considered if a product fails or becomes inoperative within the published technical performance and ratings specifications, and is used under "normal intended usage." Use of the product under "other than normal intended usage" applications shall be without warranty. Additionally, the warranty does not apply to any loss, damage, failure and/or malfunction relating in any way to shipping, storage, accident, abuse, misuse, alteration or equipment malfunction. The entire obligation of Dunlee under this warranty is to repair or replace the defective products, or at its option, to issue credit or refund. In no event shall Dunlee be liable for consequential or special damages.

WARRANTY TERMS

- Warranty consideration will be given only for products returned to Dunlee properly packaged and accompanied by a "Tube Return Form."
- All shipping costs for a warranty refund product to Dunlee are the responsibility of the purchaser and must be prepaid.
- All repairs including parts and labor made under the term of this warranty will be at no charge.
- Warranty will only be extended to the original purchaser. Transfer of warranty will not be honored without expressed prior written authorization of Dunlee.
- Warranty claims will be accepted up to 30 days after the expiration of the warranty if the failure occurred during the warranty period. This grace period will allow time for the purchaser to return the product should the failure occur during the last month of warranty.

WARRANTY PERIOD

The warranty period for any Siemens replacement Computer Tomography X-Ray Tube shall (i) commence on the date of installation and end according to the time period indicated in the table below or (ii) commence on the date of shipment which is not to exceed 2 months from the date of installation and end according to the time period indicated in the table below or (iii) commence on the date of installation and end on the date the product attains the number of scan seconds as set forth below for the particular product, whichever comes first.

Dunlee CT Tube	100%	70%	40%
S 502	6 mos. 40 kss	9 mos. 80 kss	12 mos. 130 kss
S 532 B	6 mos. 40 kss	8 mos. 80 kss	12 mos. 150 kss
S 532 Q	6 mos. 30 kss	8 mos. 60 kss	12 mos. 120 kss

The prorated CT warranty credit applied will be based on the lesser of the time or usage remaining from the calculations below:

$$100\% - [\text{Exposures Used} / \text{Exposure Warranty (in \%)}]$$

or

$$100\% - [\text{Number of months installed} / 12 \text{ (in\%)}]^*$$

CT Product Warranties vary with specific products and applications. The exposures warranty is listed in the table above.

* Credit may be based on time from shipment per terms listed above
